RELEVANT EXPERIENCE

ArtiMinds Robotics

📍 Karlsruhe, Germany

Senior Team Lead Research

Oct 2024 - today

- Leading a team of 7 full-time and student researchers
- Coordinating AI technology transfer in customer projects and commercial product development
- Establishing and expanding long-term research partnerships with >20 academic institutions and >15 industry partners
- Leading 8 publicly funded research projects on cognitive robotics with >2M € of grant volume
- Acquiring >800k € of grant volume for 2 publicly funded research projects on advanced industrial robotics

Senior Research Scientist

Jan 2023 - Sep 2024

- Researched and published on scalable, interpretable artificial intelligence for industrial robots (8 conference papers)
- Acquired and realized 5 publicly funded research projects in excess of 1.4M € of grant volume
- Conducted in-house consulting on AI methods, applications and technology transfer
- Mentored and supervised 14 graduate and undergraduate students

Research Scientist

Oct 2019 - Dec 2022

- Researched and published on semi-symbolic robot program inference with deep neural networks (5 conference papers, 2 book chapters)
- Implemented and patented a commercial AI solution for the data-driven optimization of industrial production processes
- Acquired and realized 6 publicly funded research projects in excess of 1.5M € of grant volume
- Mentored and supervised 16 graduate and undergraduate students

Junior Software Engineer

Sep 2017 - Aug 2019

- Developed a solution for data-driven robot program optimization
- Bootstrapped and co-developed a commercial platform for the aggregation, display and analysis of robot process data
- *Associate Trainer*: Training and education of industry customers

EDUCATION

University of Bremen

📍 Bremen, Germany

Ph.D. Computer Science

2020 - today

- Dissertation: *Neurosymbolic Robot Programming - A Framework for AI-Enabled Programming of Robot Manipulation Tasks* ([📄 PDF](#))
- Advisor: Prof. Michael Beetz, Institute for Artificial Intelligence
- Projected defense date: February 2025

Karlsruhe Institute of Technology

📍 Karlsruhe, Germany

M.Sc. Computer Science

with distinction

2017 - 2019

- Thesis: *Automatic Parameterization of Robot Programs via Learning of Neural Program Representations*
- Areas of Specialization: Robotics and Automation; Anthropomatics and Cognitive Systems
- Merit scholarship of the German Acad. Scholarship Foundation (Studienstiftung des deutschen Volkes)

B.Sc. Computer Science

2015 - 2017

- Thesis: *Machine Learning for Pose Optimization: An Integrated Framework for the Development and Monitoring of Adaptive Robot Programs*

SKILLS

Robotics	Task and motion planning, force control, 3D visual perception, robot programming, human-robot interaction, model predictive control, manipulation of deformable objects
Machine learning	Deep learning, imitation learning, learning from demonstration, differentiable programming, model-based optimization, interpretability, informed machine learning
Research management	Grant acquisition, science communication, stakeholder management, technology transfer, strategic planning
Leadership	Team leadership, mentoring, talent acquisition

Programming languages	Python (8 years of professional experience), C++ (3 years), Prolog (1 year), Java
Development tools	Git, DVC, Jira, CMake, Jenkins CI
Frameworks	PyTorch, NumPy, Keras, ROS, Qt

Karlsruhe, February 26, 2025
